

June 8 – 7:00pm Winnipeg Cinematheque.

The Super 8, 16mm and Hand processed World of Gerald Saul.

INTRODUCED BY GERALD SAUL

Saskatchewan film-maker Gerald Saul has been making 16mm, hand processed, and super 8 films for over 20 years. Documenting scenes from the prairie landscape with family life he mixes a strong irreverent style with a restless urge to experiment, often picking up a camera and filming the world around him. Recently he assembled his entire career on 8 DVD's. Cinematheque is proud to present an evening featuring some of his finest work.

Dave Barber, programmer, 2007
