

Department of Justice Studies, Faculty of Arts, University of Regina

Dear Students,

One of the efforts we have made in the Practicum Office to improve your practicum experience is to publish the list of practicum organizations. We hope publishing the list of practicum placement organization on the Department of Justice Studies webpage will assist you in making an informed decision for your practicum placement. This document is intended to provide students with information on the available practicum placements out there*. It is also intended to assist you in researching the organization(s) of interest. ***However, students are NOT allowed to solicit or contact the various organizations listed below to solicit practicum placements.*** It is the job of the Department of Justice Studies Practicum Office to solicit and ensure that all students in the Department have a practicum placement. Therefore, if you find an organization on the list below or somewhere else that you are interested in doing your practicum with, provide the organization and contact person's information to the Practicum Office for them to follow up on your behalf.

This is a live document, which means, it will be updated from time to time to maintain its relevance to the student's current needs. The document is arranged in alphabetical order by ***city location***. However, there is a separate category for Federal Government and international organizations. As you (the student) go through this document, it is important to know that you will obtain practicum placement in the following order:

- 1. Advanced Practicum (JS490) applicants and students in their 4th year of study***
- 2. Police Studies majors applying for Introductory Practicum placements, and the***
- 3. Order of application, i.e. first come first serve.***

Only advanced practicum applicants will be allowed to do their practicum outside of the province of Saskatchewan or internationally. However, in the case where an *introductory applicant lives* outside of the province of Saskatchewan, they may be allowed to do their practicum in the city where they live after they show proof of residence.

Some practicum placement organizations may require the applicant to do an interview and undergo background checks. In the case of Police Studies majors, some may be required to undergo extensive internal or external security clearances by their placement organization. Therefore, before applying for practicum, it is important that you speak to your Practicum Coordinator about your practicum placement interest.

It is our wish that you'll have a successful practicum placement. Our goal in the Department of Justice Studies is to provide you with a lifetime experience that would have a long-lasting effect on your future career.

Truly yours,

Practicum Office
