### 14.4 ACADEMIC ADVISING AND REGISTRATION

#### 14.4.1 ACADEMIC ADVISING

The Student Program Centre advises students who have not chosen a major. Students who have chosen a major are referred to the appropriate department. Students registered through a federated college should also seek advising from the appropriate department.

#### 14.4.2 REGISTRATION

Students should refer to the UR Self-Service Guide to Registration (§3 of this Calendar) or the *UR Self-Service* at [www.uregina.ca/student/registrar/registration](http://www.uregina.ca/student/registrar/registration) for details. Students may choose to register at the Student Program Centre, RC 267 or through their federated college. Changes to a registration will be accepted by mail, fax or email and must include the student's full name, student identification number, major and which courses are to be added or dropped. Mailed or faxed requests must be signed. Telephone requests for changes to registrations are permissible.

#### 14.4.3 REGISTRATION PERMIT OVERRIDES

Some courses and/or sections will require Registration Permit/Override Permission (see §3.2.2) prior to registration. ## 14. Faculty of Media, Art, and Performance

### 14.5 EVALUATION OF ACADEMIC PERFORMANCE

The academic performance of all students registered in the Faculty of Media, Art, and Performance is reviewed at the end of each semester (spring and summer considered as one semester).

#### 14.5.1 DEAN'S HONOURS LIST

The Dean's Honours List is compiled each semester and includes the names of students with a TGPA of at least 85% on a minimum of 12 credit hours of numerically-graded courses.

Students who are unable, because of a disability, to register in the minimum credit hours stated in the terms of the Dean's Honours List may be eligible for consideration if their maximum course load is specified and documented by a professional qualified to assess their disability. Students must have been registered with, and their documentation must have been provided to and verified by the University of Regina's Centre for Student Accessibility at the start of each semester during which the student may be considered for the Dean's Honours List.

#### 14.5.2 PROBATION AND DISCONTINUANCE

##### 14.5.2.1 University Regulations

Refer to §5.12 for all regulations regarding Academic Performance.

##### 14.5.2.2 Faculty Regulations

1. Students in the Faculty of Media, Art, and Performance are expected to maintain a PGPA of 65.00%. After a student has completed 15 credit hours, the Faculty will assess their academic performance. Those whose PGPA falls below 65.00% will be placed on faculty probation (faculty probation does not appear on official transcripts). Students who are placed on faculty probation will:
  - a) Have an academic hold place on their account restricting them from future registration.
  - b) Must schedule and attend a mandatory advising session with the student program advisor and the department head.
  - c) Agree to the probationary contract that is created during the above-mentioned advising session. The contract may include: a restriction on the number or level of courses a student might register in, require attendance at workshops offered by the student success center (or other academic supports), on-going advising/counselling until the student clears faculty probation.

For the next 15 credit hours undertaken, the student will be on Faculty-level Probation. During this time they may take any courses but it may be recommended that they re-take specific classes. If the student has successfully raised their PGPA by the end of the probationary period to above 65%, they will be removed from faculty probation. If the student has not successfully raised their PGPA to above 65% they will remain on faculty probation for 9 more credit hours. If the student successfully raises their PGPA by the end of the second probationary period then they will be removed from faculty probation. If a student has not raised their PGPA above 65% after being on faculty probation for 24 credit hours, they will be RTD from the Faculty of Media, Art and Performance.

Faculty probation refers only to a student's PGPA. Students must also satisfy the university regulations around Academic probation and to be aware of the graduating requirements of their particular program.

2. A second failure in a course required for the student's program will result in a requirement to discontinue for two semesters from the program. Re-admission to the program will be by petition. Failure in the third attempt will result in a requirement to discontinue indefinitely from the program. Please refer to the list of specific courses required for each program under the appropriate Department.

3. Students who fail English 110 twice will be required to discontinue from the Faculty of Media, Art, and Performance for two semesters. Re-admission to the Faculty will be by petition. Failure in the third attempt will result in a requirement to discontinue indefinitely from the Faculty.
4. On the recommendation of the Faculty Committee on Admissions, Studies, and Procedures, students may be required to discontinue indefinitely from the Faculty of Media, Art, and Performance for unsatisfactory professional development or prolonged unsatisfactory academic development. Students have the right to appeal this decision (see §14.8).

### 14.6 GRADUATION REQUIREMENTS

A student's PGPA for graduation purposes will be calculated only on those courses taken at the University of Regina that form part of the degree (i.e., failed courses, extra courses and transfer credits are not included). Courses that are required to be taken at another institution as part of a University of Regina program will be treated as University of Regina courses.

#### 14.6.1 APPLICATION TO GRADUATE

### 14.14.6 BACHELOR OF MUSIC (BMus)

In addition to the normal entrance requirements, an interview and an audition in the applicant's major applied area are required, as well as a theory entrance test. Further tests will determine the granting of advanced standing in music theory. Dates of the test are available on request from the head of the Music Department. Those desiring consideration for music entrance scholarships should complete the audition and entrance test by April 1.

All first-year students are classified as majoring in Comprehensive. The other majors (Composition, History or Performance) begin in year 2, semester 1. First-year students should consult a music department instructor in the area (the composition professor, their music history teacher or their applied music teacher) concerning the level of achievement required to qualify for a major other than Comprehensive in years two through four. Potential performance majors must indicate to the department head, as well as to their applied music instructor, during year 1, semester 2, that they wish their next jury also to serve as an audition for the major in Performance.

Study in one performance medium (the applied major) is required for a varying number of semesters, which may include one or more required recitals, depending upon the program major. No more than 9 credit hours of directed study courses may count toward graduation requirements.

Except with the special permission of the head of the Music Department, all degree requirements must be completed within seven calendar years from the date that the program commenced.

Non-keyboard majors may be required to enrol in class piano. Failure to meet the proficiency level required by the department will mean additional study.

To qualify for the BMus degree students must complete at least 120 credit hours (75 credit hours of core courses and 45 credit hours in one of the areas of comprehensive, composition, music history or performance).

This five-year program is offered jointly by the Faculty of Media, Art, and Performance and the Faculty of Education under the supervision of a joint coordinating committee of the two faculties. The program prepares students to teach secondary choral and instrumental music. The program consists of minimum of 150 credit hours and depending on the teaching minor chosen, students may be required to complete additional credit hours in order to qualify for teacher certification. Once students enter the program they must complete the entire integrated program to graduate with either degree. Should a student decide to pursue only one of the degrees identified, they must officially apply to transfer out of the joint program. Upon the completion, students will receive a Bachelor of Music Education degree and a Bachelor of Music degree.

All students in the program register in the Faculty of Media, Art, and Performance for semester 1 through 6 and obtain academic advising from the Department of Music in the Faculty of Media, Art, and Performance. In semester 7 through 10, students register through the Faculty of Education and must obtain academic advising from the Student Program Center, Faculty of Education and the Chair of Music Education, Faculty of Education. Students must apply to both the Faculty of Education and the Faculty of Media, Art, and Performance for graduation. Refer to §14.14.7

#### Admission Criteria and Application Process

Students applying to the joint BMusEd/BMus Program must meet the admission criteria for both the Faculty of Education (BMusEd) and the Faculty of Media, Art, and Performance (BMus), including successful completion of an audition and an examination in music theory to be given by the Music Department. Application deadline dates and

process can be found in §2.3 and §2.3.4. Dates of auditions are available on request from the Music Department.

In addition, all applications to the Joint Program require a Teacher Education Application and Profile. Contact the Student Program Center, Faculty of Education for application procedures.

#### Program requirements

Students pursue applied music study on one instrument or voice for six semesters, presenting a half-hour public recital during the sixth semester. This recital requirement may be fulfilled by a one half-hour jury recital before music faculty members with the permission of the Music Department Head. The recital requirement must be completed before students enter semester 7 of the program.

Successful participation in two core ensembles is required during each of the first six semesters.

A PGPA of 70% is required in their combined music and music education courses in order to proceed to pre-internship in semester 8.

One semester is devoted to internship (EFLD 400) with 15 credits to be counted toward graduation.

Semester 10 has been strategically constructed to allow for a semester of international study (optional).

Qualifying for the Professional A Certificate granted by the provincial Ministry of Education will require careful management of all of the options and electives available in the program.

Students must seek academic advising in their minor area of study in the Student Program Center, Faculty of Education prior to the end of semester 2 (see §11.11.14).

#### Academic Advising

Academic advising will be done jointly with representatives from both faculties.

#### Joint Program Academic Performance and Progress

### 14.14.8 APPLIED MUSIC LESSONS (MUBC, MUBN, ETC.)

As a sample number for applied music lessons, MUPI 141 designates lessons for a piano student in the first semester, first year of a BMus performance degree.

The performing medium is indicated by the following two-letter symbols:

BC bass clarinet	HD harpsichord	TB trombone
BN bassoon	HN horn	TP trumpet
CL clarinet	OB oboe	TU tuba
DB bass	OR organ	VA viola
EU euphonium	PC percussion	VC violoncello
FL flute	PI piano	VN violin
GR guitar	SX saxophone	VO voice

The first digit refers to the year of study.

The second digit indicates the degree program towards which the credit is taken, according to the following scheme:

- 4 - BMus applied major (performance concentration)
- 3 - BMusEd/BMus applied major; BMus applied major (comprehensive, music history, music theory or composition concentration)
- 2 - BEd, BMus minor or other.

The third digit indicates the semester of study at a particular level.

Participation in an ensemble may be required of students enrolled in an applied music lesson.

Prerequisite: Permission of Music Department.

Students should note that:

- Students in the third through eighth semesters in the BMus degree program concentration in performance receive 3 hours of credit for the applied major lesson. All others receive 2 hours of credit.
- Students should not register for the second, third, or fourth year of study without having received credit for the previous year or advanced standing from the Music Department.
- Unless there are extenuating circumstances, no student may enroll for more than the regular sequence of eight semesters of applied music lessons.
- For students in the BMus and BMusEd/BMus programs applied lessons in a secondary area are dependent upon the availability of regular, full-time faculty and the permission of the department head.
- Students in the BMus and BMusEd/BMus degree programs will not receive credit towards their degree program for applied lessons in the MUxx 121 series in the primary applied area.

Notes: Students may use elective credit to gain additional depth in a second studio major.

Faculty of Media, Art, and Performance regulation 14.6.2 requires a minimum GPA of 65% in all courses and a minimum GPA of at least 65% in all courses taken in the major subject and in courses in other disciplines required for the major, within a four-year BA and BFA program for graduation.

To receive an Honours degree, the minimum grade point average is 75% in the area of concentration (major discipline).

Students who receive a grade of less than 65% in a studio course and who wish to continue to the next level of studio courses must petition the Department Head for a review to take place before the end of that term's exam week. The review will be chaired by the Department Head and will consist of two other faculty members. The purpose of the review is for the student and faculty to find solutions for successfully resolving studio problems. If the review goes well, the student may be given permission to register in the next level studio course.

Visual Arts majors in the BA program who wish to apply into the BFA program must do so before taking a 400-level course in the major. Students must complete all required 200-level courses in studio

before taking a 300-level studio course. Graduating BFA majors are required to take three credits in senior studio in each of their final two semesters leading towards their exhibition, as well as ART 400 and ART 401. Students must prepare their graduation exhibition in the semester in which they graduate.
