Dr. Thomas Chase
Provost and Vice-President (Academic)
University of Regina

Dear Dr. Chase,

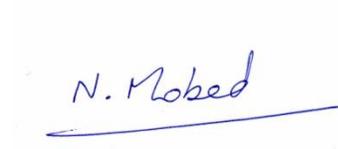

Thanks very much for your letter of February 23, 2017 in response to the external reviewers' report on the Physics Department AUR.

The Department of Physics is very pleased, and in general concurs, with all the recommendations listed in the reviewers' report as well as your suggestions, observations, and recommendations. The Department's response to the reviewers' report (submitted to CCAM on January 30, 2017) provides a progress report and describes the Departmental plans for implementing the recommendations.

I will certainly contact your office to set up a meeting between you and the Department of Physics within the next few months by which time we will have moved further along in implementing the reviewers' recommendations.

On behalf of the Physics Department, I would like to take this opportunity to thank the University for all the support it has provided to our Department.

Sincerely yours,
