Dr. Khan, Interim Dean  
Dr. Rennie, Associate Dean (Accreditation)  
Faculty of Business Administration

Dear Drs. Khan and Rennie:

Thank you both for taking the time to meet with CCAM on January 8, 2024 and providing an update on the progress being made around the accreditation process. It is a Herculean task and it says a considerable amount about the safe environment in the Faculty that most faculty members are not only engaging with the process but are collectively working towards achieving the recommendations of the external reports that the Faculty has received.

The committee is cognizant that this is a process operating outside of our purview and further that much of the work being done in response to the external reports is in progress. The committee, however, did want to stress that in order to avoid duplicating workloads and maximizing the time this project requires the Faculty leads are encouraged to reach out to potential university partners (both academic and non-academic) who have already done much of the work that is being requested (such as the Office of Institutional Research for retention and graduation data and the CTL for teaching supports). We thank you again for meeting with CCAM and wish you all the best on your continued successes in the ongoing accreditation process.

Please do not hesitate to contact us if you have any questions.

Sincerely,

Wes Pearce  
Chair, Council Committee on Academic Mission
