Re: Center for Continuing Education Academic Unit Review - Verbal Response

Dear Dr. Schultz,

Thank you for meeting with the members of CCAM on October 11, 2022, and providing your verbal response to the External review and report recommendations. Our Committee has appreciated your clear and thoughtful overview of the changes happening in your program, including the organizational, reporting, program amalgamations and name changes. We especially appreciate your commitment to student success through the student journey mapping work that has been done and the changes in the registration system.

We look forward to hearing more as these changes are implemented.

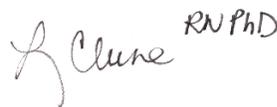

We trust that using a data-driven decision-making approach you have implemented will assist you in making fiscally responsible decisions in the years to come. This approach should be used when considering the educational technologist leader role.

The Committee also recognizes and appreciates CCE's critical work and commends you on the robust team cultivated under your leadership. We look forward to hearing more about your progress at the 18-month follow-up.

Sincerely,

Dr. David Gregory,
Interim Provost and Vice-President (Academic)
