**REPORT TO EXECUTIVE OF COUNCIL FROM THE COUNCIL COMMITTEE ON ACADEMIC MISSION FOR THE PERIOD FROM 1 JULY 2020 TO 30 JUNE 2021**

The Council Committee on Academic Mission (CCAM) last reported to Executive of Council at the September 2020 meeting. CCAM met monthly by Zoom and meeting agendas and minutes are available on the CCAM [website](#). Academic Unit Reviews (AUR) can be found on the AUR website (<https://www.uregina.ca/president/executive-team/provost-vp-academic/academic-unit-reviews/index.html>).

The bulk of CCAM's work is concentrated on the AUR process and meeting with units that have been reviewed. These meetings take place shortly after the units and/or programs have been reviewed, 15-18 months after a review, and five years after a review. The meetings focus on how units managed the recommendations from the review team. Since our last report, we have met with the following units:

Faculty of Arts: Department of Economics (15-18 month report); Department of English (15-18 month report); Department of Music (15-18 month report); Department of Philosophy & Classics (5 year report); Department of Politics and International Studies (verbal response to CCAM on the AUR team's recommendations); and the School of Journalism (15-18 month report);

Faculty of Business Administration: (update on accreditation process<sup>1</sup>);

Faculty of Engineering and Applied Science: Graduate Programs (15-18 month response);

Faculty of Media, Art, and Performance: Interdisciplinary Graduate Programs (verbal response to CCAM on the AUR team's recommendations);

Faculty of Science: Department of Geology (15-18 month report) and Department of Physics (5 year report);

Faculty of Social Work: (report on accreditation process and accreditation awarded);

First Nations University: Indigenous Social Work (update on accreditation process; accreditation awarded); and,

<sup>1</sup> From the AUR Policy, OPS-130-005, "Reviews take place in the framework of a 10-year cycle. Where applicable, unit reviews should be scheduled to coincide with (re-)accreditation, and with the review or 5-year update of closely related units. Should a Faculty or unit undergoing external (re-)accreditation wish to use the (re-)accreditation process to replace part or all of an Academic Unit Review, the Faculty or unit is invited to consult with CCAM about the possibility of doing so."

Johnson Shoyama Graduate School of Public Policy: (5 year report)

CCAM also serves as a forum to discuss topics related to the academic mission of the University. This year we discussed proposed frameworks for credentials and micro-credentials, post-pandemic teaching and learning and endorsed the semester-based [Teaching and Learning Frameworks](#).

We want to extend a big thank you to everyone who met with us during this challenging past year and, especially, thank Dr. Dongyan Blachford, Janine Brown and Dr. Jim Farney, who completed their terms on CCAM, for their service on the Committee, as well as Yvonne Gray for her excellent administrative support of the committee's work.

## COUNCIL COMMITTEE ON RESEARCH REPORT TO EXECUTIVE OF COUNCIL

---

### ITEM(S) FOR APPROVAL:

#### 1. Research Chair – Fedoruk Chair in Neutron Imaging

**MOTION:** The Council Committee on Research recommends the creation of the Fedoruk Chair in Neutron Imaging.

#### **Background:**

Saskatchewan's universities have been pioneers in nuclear medicine and accelerator-based nuclear physics since the 1950s, which includes scattering experiments using particle beams. This proposed Fedoruk Chair in Neutron Imaging would represent a niche in our province as well as nationally, and would leverage the University of Regina's extensive expertise in scattering experiments and nuclear imaging.

The Fedoruk bridge-funded, chair model is an excellent one that promotes the Fedoruk Centre's goals and vision and meshes well with the University of Regina's (UofR) Faculty of Science and Department of Physics planning, while creating synergies in research, establishing partnerships and building capacity in the Province that promises to place Saskatchewan among national and global leaders.

The proposed Chair in Neutron Imaging would contribute to three fundamental activities: building capacity and strengthening research, enabling access and supporting innovation, and fostering education and public engagement, thereby aligning with the University's strategic objectives in Discovery and Impact & Identity. An earlier partnership with the Fedoruk Centre has allowed us to jointly carry out research in nuclear safety (prototype radiation detectors with industry for first responders, 2012-2015) and nuclear imaging of plants and soil microbiome (2015-present). The proposed Chair in Neutron Imaging could work in one or more areas connected to clean energy, materials research, or safety and security, depending on the specific expertise of the recruited candidate and the overlap with the Department's expertise.

A long-term objective of the Department of Physics is to support and expand our applied physics program. We see an opportunity to venture in a new niche research area for Saskatchewan, neutron imaging, with potential national and international impact, by participating in the Canadian Neutron Initiative. This would complement and extend research at the two Saskatchewan universities and help build new collaborations, provincially and nationally. Such a venture has the promise of partnerships with industry and/or Crown Corporations (e.g., SaskPower). These programs carry significant appeal towards recruiting highly qualified personnel (HQP) in the form of students and postdoctoral fellows
